# The 2025 Happy Endings Calendar

When the going gets rough, the tough get going! National Great Pyrenees Rescue's 16th Happy Endings calendar is a testament to the resilience of rescue. In a year universally acknowledged as one of the most challenging ever, the calendar raised a breathtaking \$70,750. That's a good thing because the number of dogs and cost of doing rescue is spiraling ever higher. The majority of our dogs come from high-kill shelters, where time is short for big dogs who are more expensive to care for and take up more room. The need to "Save More Pys" is greater than ever. We are happy to present the 16th edition of our Happy Endings calendar, which helps fund that mission.

Hercules ✨ Michigan  
15,000 VOTES

## THE TOP DOGS OF 2025

Hercules topped the charts this year sailing past the 180 dogs entered in our 2025 calendar contest. Many of them came in pairs. Josie and Olive, our first runners' up, are two female foster falls living happily ever after together. CJ, our second-place winner, is a new arrival this year who gets along famously with his NGPR sister, London. Tate and Hannah live with another NGPR rescue, Grace. Dudley and Cali are a

perfect pair living their happily ever after together, too. We're glad all of them have found their happy place in this year's calendar. Thank you to everyone who entered their dogs and voted in this year's calendar contest!

## A TERRIBLE SITUATION

It's not unusual for us to hear about dogs in need these days. Sometimes entire families of dogs need rescuing. That's what happened last December when our Ohio volunteers learned about an abandoned farm with several Great Pyrenees. The conditions were awful. Rescuers came in to remove the farm animals but the dogs on the property also needed rescue. When our rescue team went in, they were shocked.

## THERE WERE DOGS EVERYWHERE

Hercules was found locked in a horse trailer on the property. He was happy to be free of his prison. The 11 dogs from the farm were brought to Lucky Mutz Kennel in Springfield, OH to decompress, be assessed and get vetted. With all these dogs suffered, they came through with flying colors, proving to be well-adjusted friendly dogs. As it was Christmas, they were given holiday names. Hercules was called Kris Kringle as he was such a charming, friendly boy. Weighing in at 85 lbs, he was underweight with skin and ear infections, mild erythema and dental issues.

## THE ROAD HOME

Once Hercules was neutered and had his health issues sorted out, it was time to find him a foster home. Jennifer in Michigan, who had fostered seven dogs for us, had the perfect place for Hercules to go. Hercules moved there in late January and we started the search for his forever home.

As fate would have it, Tilly was also looking for her perfect match. She had lost her lab, Daisy, who wasn't an easy dog. Tilly used clicker training to convert Daisy into a "fast" agility dog and a phenomenal dock diver. A few months after Daisy passed, Hercules came to Michigan. He was fostered near Tilly, so she filled out an application for him.

## HAPPY DEEP IN THE WOODS

When Tilly and Hercules met on March 3, it was love at first sight. Tilly harnessed Hercules up and the two of them started walking and exploring the nearby forest. Together, they strolled for five miles checking out trails, creeks, pastures, trees, ditches and wildlife. Hercules stopped, listened, observed and then calmly proceeded forward. From Day 1 Hercules became affectionately known as "Mr. Wonderful." Together he and Tilly have covered 500 miles in forest strolls.

## HERCULES IS LOVING HIS NEW LIFE

When Hercules needed to become acclimated to car rides, Tilly put him in the back of an old car with some stuffed Kongs. It didn't take long until he was totally comfortable and the car could be started without scaring him.

Hercules is at his finest strolling around town—he consistently steals hearts by making everyone he meets feel incredibly special. He clearly has Tilly's heart. She says he's a big, white, fuzzy, story-book dog—a canine gentleman with a noble disposition. From his early days being locked in a trailer, Hercules has emerged as an affectionate, social butterfly who enjoys his life with Tilly and his new-found role as GP ambassador.

# Making a Difference, One Dog At a Time

We hear about many dogs during the course of a rescue year. But nothing tugs at our hearts like dogs who have challenging medical issues other rescues cannot fund or help. The healing journeys of these dogs show the remarkable resiliency of the breed, and we can't thank the caring fosters enough who helped them along the way. Here are some of the neediest cases dogs we helped in 2024 where NGPR was able to step forward and make a real difference in their lives.

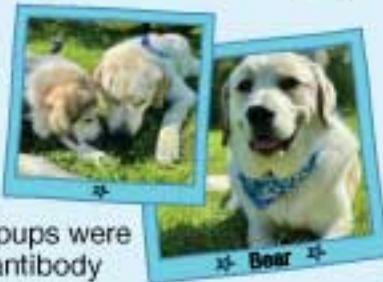

Angel

Angel roamed in Georgia for six years before NGPR picked her up. She had surgery to remove a large non-cancerous skin tag on her belly, got adopted and now lives in Massachusetts with a senior Pyr brother.

## Bear (was Alaska)

NGPR rescued litter-mates Alaska, Bastien, Fairbanks and Kenai after their other three siblings were euthanized at a Kentucky shelter for parvovirus. The pups were treated with an expensive antibody costing \$4,000. Happily it worked, and all three lived and were adopted this Spring.

## Snow Bear

Snow Bear was found as a stray in January and languished in a North Carolina shelter until March. He was in such bad condition, it was thought he was much older than three. Our rescue partner, Gentle Pets in Virginia, agreed to take him. His cranial cruciate ligament (CCL) in his left knee was torn and he had surgery in June; the cost was just over \$5,000 to help Snow Bear get back on his feet again.

## Olaf

This handsome boy was picked up from a high-kill Virginia shelter, diagnosed with double luxating patellas (dislocated kneecaps). He lived with caring fosters while he had two surgeries costing \$9,000, and then found a loving home in Pennsylvania.

## Bronco

Bronco and his litter-mates were found in a Kentucky cemetery. As he matured, he started limping and was diagnosed with osteochondritis dissecans (OCD) in his right shoulder. He had surgery in May and is now walking like a champ. His foster Mom is adopting him.

## Pilot (was Sargon)

This poor guy started limping after coming into rescue from a North Carolina shelter. He was diagnosed with a CCL tear in his left knee and then again in the right! Pilot loves spending time with his family, and NGPR is committed to seeing him through multiple upcoming surgeries.

# Making A Difference One Dog at a Time

Peace & Autumn

These 12-year-old girls are victims of breeder neglect, and a cruelty seizure in Virginia released them to rescue. They are positive for heartworm, lyme and ehrlichia. An NGPR foster will nurture them back to health and hopefully give them a few more good years.

## Casper

This Tennessee sweetie was hit by a car. He wandered up to a house where the kind couple contacted rescue and agreed to foster him through his FHO (femoral hip ostectomy) surgery. Casper quickly learned that life inside the house is better than wandering the streets.

## Babe

Babe came from an Indiana shelter. She was under-socialized and so scared she couldn't stand up. She was also diagnosed with severe luxating patellas in both knees, requiring two surgeries and months of rehab at a cost of \$9,000. Lucky Mutz in Ohio helped Babe heal in body and soul with months of water treadmill and swimming therapy. Babe discovered courage and developed self-confidence when she swam! She plays in the yard with her foster brothers, does zoomies and now runs like a real dog.

## HOW YOU CAN HELP

Volunteers and qualified fosters are needed for the rescue effort. Fosters help house rescue dogs all over the country. Dogs are assessed and quarantined before going to foster homes. They are spayed or neutered, fully vaccinated and medicated with flea medication and heartworm preventative. Please consider fostering a rescue dog to start him or her on their new path in life. It's a rewarding experience—so much so that many fosters have adopted the dogs they were caring for. If you would like to volunteer for any job, please go to [nationalpyr.org/become-a-volunteer](http://nationalpyr.org/become-a-volunteer) to learn more about volunteering. If you can't help, please donate to support the rescue effort by going to [nationalpyr.org/donate-dogs](http://nationalpyr.org/donate-dogs). We thank you and the dogs thank you, too!

Spot the heart on the first of each month! Use this as a reminder for monthly medications as well as a reminder to schedule family time with your fur friends. This is also a perfect time to check in on us at National Great Pyrenees Rescue on Facebook and Instagram to see our Neediest Cases, meet new foster pups and congratulate the pups who have found their forever families! NGPR runs on volunteers and our network of supporters. Thank you for being part of our pack and caring about the dogs.

THIRD PLACE

Tate & Hannah ★ NC  
5,450 VOTES

**National Great Pyrenees Rescue (NGPR)** was established in 2006 as a 501 (C) (3) not-for-profit to facilitate the placement of rescued Great Pyrenees dogs across the country. **Our Mission** is to help dogs of Great Pyrenees origin find good homes—wherever they are. **Our Vision** is to create a national rescue network capable of seriously reducing the number of Pyrs and Pyr mixes who are abandoned and destroyed. **Pyrs are a breed at risk.** Their size makes them especially vulnerable to being euthanized after only a few days in high-kill shelters. NGPR supports Pyr rescuers who pull Pyrs and Pyr mixes from high kill shelters. The dogs are spayed or neutered, fully vetted, and fostered until they can find homes in places where they are wanted.

**Together We Can Save More Pyrs**
